Abstract (en)
[origin: WO2017190828A1] Connector (100; 200) for a high-voltage plug (10) for electrically connecting high-voltage components, in particular an electric drive system in a motor vehicle, said connector (100; 200) comprising at least one electric contact assembly that includes - at least one annular contact element (102); - a first inner protective element (104) that is located inside the contact element and protrudes from the contact element (102); and - a first outer protective element (108) which at least partially surrounds the contact element (102) and protrudes from the contact element (102), the first inner protective element (104) and the first outer protective element (108) forming a shock protection for the contact element (102).
