Abstract (en)

[origin: WO2017158494A1] The invention relates to a suction member (14) for a hookah (1), said suction member (14) comprising a connector (2) designed to be connected to a main enclosure of a hookah, a suction end piece (4) designed to be put in the user's mouth, and a suction tube (3) designed to be mounted between said connector (2) and said suction end piece (4), the suction tube (3) comprising a longitudinal concertina-folded portion for reducing the length thereof during the storage thereof.
