Abstract (en)  
[origin: WO2017158107A1] The invention relates to a massage device (1) for massage by means of pressure waves, comprising a housing (2) with a grip section (4) and a massage section (6), at least one first chamber (8, 10) comprising an opening (12) in the massage section, leading towards the outside, and a drive device (30) for modifying the volume (V1) of the first chamber (8), the drive device (30) comprising at least one coil element (32, 34) and at least one movably guided magnetic core (38) arranged parallel to the coil element (32, 34), for acting on the first chamber (8).
