Abstract (en)

[origin: WO2018125128A1] A method for improving safety for use with a navigation GPS map system that can display the current location of a vehicle that contains the navigation system on a map generated by the system, the method warning of an approaching point of interest selected from a traffic light, a school zone, or a railway crossing that the vehicle is approaching by displaying an icon of the traffic light, school zone or railway crossing. The display can be limited to when a wireless communication device in the vehicle is in an active voice mode.
