Abstract (en)

The play block with interchangeable graphics, intended to create a set of blocks in order to obtain a graphic pattern or a shape, wherein the play block consist of at least two parts (1), that are held together by connecting elements (2) and/or by mutually adjusted opposing surfaces of parts (1), while at least one part (1) contains replaceable graphics and at least one part (1) is a fixed carrier for block handling. The invention further relates to a set of play blocks that consist of at least two blocks configured in planar and/or spatial configuration.
