Abstract (en)  
An installation device (1) for a sanitary appliance mounting structure (2), comprising a substantially flat plate body (11) having a rear face (17) configured to lean, in use, against a support wall (3) of the mounting structure (2); and at least a bracket (12) projecting from the plate body (11) and substantially perpendicular to the plate body (11); the plate body (11) is provided with at least a pair of through openings (20a) shaped so as to receive respective fastening members (21) for fixing the device (1) to the support wall (3); the bracket (12) has an upper contact surface (29), substantially horizontal in use and substantially flat, configured to receive and support in use a bottom end edge (7) of the mounting structure (2).
