Abstract (en)
[origin: WO2017167689A1] The invention relates to a visor assembly, in particular for a protective helmet. The visor assembly comprises at least one protective pane element (4) for at least partially protecting the face of a wearer and at least one additional protective grating element (12) that can be fixed locally to the at least one protective pane element (4) for protecting the at least one protective pane element (4).
