Abstract (en)  
A mounting bracket for a cooling equipment (1), comprising two horizontally positioned, parallel first support bars (10) providing two mounting platforms (40) for the cooling equipment (1), wherein the mounting platforms (40) to the cooling equipment (1) are adjustable along the first support bars (10); two horizontally positioned, parallel second support bars (20) positioned transversely to the two first support bars (10); wherein both two first support bars (10) are adjustably mounted to both two second support bars (20); at least two stands (30) mounted between the second support bars (20) and a solid platform (2), configured to provide vertical distance between the two second support bars (20) and the solid platform (2). The first support bars (10) comprise first C-channel bars (11), wherein the mounting platforms (40) to the cooling equipment (1) are adjustable along the first C-channel bars (11); and the second support bars (20) comprise second C-channel bars (21), wherein the adjustable mounts to two first support bars (10) are adjustable along the second C-channel bars (21).
