Abstract (en)

[origin: WO2017188901A1] The invention relates to a grinding mill comprising a drum (10) wherein a plurality of balls (30) are disposed in a freely movable manner having an inlet (12) to fed particulate material inside the drum (10) and an outlet (14) to transfer fine material after grinding. The grinding mill is comprising a strain sensor (80) adapted to the drum (10) so that providing a data to determine a weight information of the drum (10).
