Abstract (en)
[origin: WO2017186285A1] The invention relates to, inter alia, a component comprising at least one base sheet (2), at least one cover sheet (4) arranged on the base sheet, at least one damping sheet (10) arranged between the base sheet (2) and the cover sheet, and at least one reinforcing element (6, 8). The base sheet (2) is at least partly free of the cover sheet (4) and the damping sheet (10) in an attachment region (12) on the cover sheet side, and the reinforcing element (6, 8) is connected to the base sheet (2) and the cover sheet (4) on the cover sheet side in the attachment region (12). The invention additionally relates to a method for producing a component and to the use of a component.
