Abstract (en)
[origin: WO2017186817A1] The invention relates to a deformable support strip (1) as an insert for decorative or sealing strips, made of a flexible material, in particular for rubber and/or plastic clamping profiles, comprising a metal strip which comprises a first strip portion (1A) and a second strip portion (1B) which are interconnected on a connecting point (9), the support strip (1) being provided to increase the stability in the region of the connecting point with reinforcing means (10).
