Abstract (en)
[origin: WO2017186791A1] The invention relates to a rust dissolver (50) for dissolving a corroded mechanical connection of metallic surfaces. The rust dissolver (50) comprises at least one solvent (51), at least one thickener (54), at least one complexing agent (53) for metal ions and at least a non-ionic surfactant (52). The invention further relates to a method for dissolving a corroded mechanical connection of metallic surfaces using the rust dissolver (50).
