Abstract (en)
[origin: US2019072907A1] The invention relates to an actuating tool for actuating a push-button corrector equipping a portable object of small dimensions, wherein said actuating tool comprises a body that extends between a rear end that defines an area for grasping the actuating tool and a front end that defines an area for actuating the actuating tool, wherein the actuating tool further comprises an actuating rod that extends inwards relative to the body and that ends, towards the front end of the body, in an actuating portion, and the actuating tool finally comprises a guide sleeve that surrounds the actuating portion of the actuating tool and that is capable of moving between a first protruding position wherein the actuating portion is at most flush with the guide sleeve, and a second position wherein it is at least partially retracted inside the body, in which position the actuating portion is capable of actuating the push-button corrector.
