Abstract (en)

[origin: WO2017197198A1] A gown (10), comprising: a body (12) member having integral or attached side panels (13) extending behind a front of the body (12) member; wherein the side panels (13) overlap each other behind the front of the body (12) member; means for attaching together the side panels (13) where they are overlapped; wherein the body (12) member defines a neck opening (16) and left and right arm openings; and wherein the gown (10) comprises left and right sleeves (14) attached at the left and right arm openings, respectively. The means for attaching comprises one of the group consisting of welding, spot welding, sonic welding, heat welding, hot or cold glues, adhesives, tapes, hook and loop fasteners, micro adhesives and dry adhesives.
