Abstract (en)

[origin: WO2017195800A1] The present invention relates to a composition comprising: (a) at least one organic UV filter; (b) at least one inorganic hydrophobic oil-absorbing powder; (c) at least one organic hydrophobic oil-absorbing powder; and (d) at least one hydrophilic oil-absorbing powder with an oil-absorbing capacity of 100 ml/100 g or more, preferably 150 ml/100 g or more, and more preferably 200 ml/ 100 g or more. The composition according to the present invention can provide UV shielding effects based on the (a) organic UV filter(s), while it can provide matte appearance and excellent texture.
