Abstract (en)

[origin: WO2018209345A1] The invention provides a method for combating biofilm, said method comprising contacting a biofilm with a composition comprising effective amounts of one or more biofilm degrading enzymes in combination with antimicrobial agents or antimicrobial essential oils. The biofilm may be on an animate or inanimate surface and both medical and non-medical uses and methods are provided. In a preferred aspect the invention provides a composition and method for use in the treatment or prevention of a biofilm infection in a subject, particularly in the oral cavity.
