Abstract (en)  
[origin: WO2018087057A1] The invention relates to a movable base (2) for transporting equipment by land, in particular aeronautical equipment. The movable base (2) comprises a frame (120) including two side arms (122) designed to move parallel to one another and means (21) for rolling on the ground, which are connected to the frame (120). Each side arm (122) comprises lifting means (103) designed to move the equipment vertically and to tilt same between the side arms (122).
