Abstract (en)

[origin: WO2018010953A1] A method for labelling first packs (14), comprising at least the following steps: labels (12) are transported to a labelling region (10), wherein, during transportation, an adhesive-bonding side of the labels (12) is directed upwards; the first packs (14) which are to be labelled are removed from a magazine apparatus (32), wherein the packs (14) are present in the magazine apparatus (32) in the form of at least partially flat pack blanks and are removed individually from the magazine apparatus; the first packs (14) are brought up to the labels (12) and the labels are adhesively bonded to the packs, wherein the packs are pressed onto the labels preferably from above; the first, labelled packs (14) are inserted into second packs (15), and a plurality of containers (17) are introduced into the first and second packs (14, 15).
