Abstract (en)

[origin: WO2018007036A1] The invention relates to a steam generator pipe (1) for producing a steam generator pipe (2) with a spiral-shaped installation body (3), wherein an elevation (5) extends on the inner side (4) of the steam generation pipe (1) in the axial direction of the steam generator pipe (1). The invention further relates to a method for producing a steam generator pipe (1) having an installation body (3).
