Abstract (en)

[origin: CN109518354A] The present invention relates to a method and a warp knitting machine for preparing a warp knitting machine, and in particular to a method for preparing a warp knitting machine, in which a yarn guiding needle with a thread that is inserted is provided It travels to the tensioning position relative to the needle and stops there, and the yarn is tightened there. It is desirable to achieve high productivity of warp knitting machines. For this purpose, it is provided that the needle guide is moved by the machine controller of the warp knitting machine into the tensioning position.
