Abstract (en)

The invention concerns a heating apparatus (10) for regulating the temperature of a room, comprising: - a housing (14) having a connecting portion (16) configured to be connected to a humidifying device (18) to humidify the room, and - a control device (20) configured to control a humidifying device (18) connected to the connecting portion (16) depending on at least one parameter representative of a future need of humidity regulation in the room.
