Abstract (en)

[origin: WO2017202867A1] The invention relates to a ceramic shell (10) for producing a dental prosthesis and to a method for producing a ceramic shell for a dental prosthesis, particularly for veneering a dental scaffold (11) or as a full ceramic dental prosthesis, wherein the ceramic shell (10) is manufactured in the form of a green compact from a ceramic powder and a binder system such that said ceramic shell can be shaped flexibly and can be adjusted plastically to adapt to a body.
