Abstract (en)

[origin: WO2017202650A1] The invention relates to a sheet of paper (1) for forming a security document (2), comprising a carrier substrate (11) and n window elements (12) arranged in window recesses (11a) of the carrier substrate (11), wherein n is at least equal to 1 and wherein the n window elements (12) are formed from a window substrate (13). The n window elements (12) are integrally joined to the carrier substrate (11). The invention further relates to a method for producing the sheet of paper (1) and to a security document that comprises the sheet of paper (1).
