Abstract (en)

[origin: WO2017203009A1] The invention relates to a hatch with a polymer door, whereby the polymer door comprises a polymer front panel; and a reinforced polymer back panel, whereby the back panel and the front panel are joined together and the reinforced polymer back panel 5 comprises reinforcing elements. The invention further relates to a vehicle comprising such a hatch, wherein the front panel of the door faces an exterior of the vehicle and the back panel faces an interior of the vehicle.
