Abstract (en)

[origin: WO2017207296A1] The invention relates to a door handle module (10) for a door handle unit (100) on a vehicle (200), in particular a commercial vehicle (200), said door handle module (10) being used to integrate an electronic unit (20) for the door handle unit (100). The door handle module (10) includes at least one covering element (11) on which at least one electronic element (21) of the electronic unit (20) is arranged, and at least one fastener (12), the door handle module (10) being securable to a module holder (110) on the door handle unit (100) by means of at least one fastener (12).
