Abstract (en)  
[origin: WO2017207487A1] The present invention relates to a boresighting device intended to equip a turret (1) mounted with a gun (4) and one or more optics-based sighting systems (10), said device comprising: a deflection target (3) intended to be positioned on the exterior of the gun (4), level with the muzzle brake (6) of said gun (4); and a housing (2) intended to be positioned on the exterior of the gun (4), level with the mantlet (5) of said gun (4), said housing (2) including a first optical system (7) equipped with a deflection video camera and a second optical system (8) equipped with a boresighting video camera.
