Abstract (en)

[origin: WO2017207402A1] The invention relates to a electrical plug-in connection (100) that can be quickly disconnected and comprises: a first coupling part (101), which comprises a first electrical contact element (1), a connection cable (10), an insulation sleeve (9), and a first housing (13); and a second coupling part (102), which has a second electrical contact element (7), onto which the first electrical contact element (1) can be slid, and a second housing (16), which together with the second electrical contact element (7) forms an annular space (28), into which the first housing (13) can be inserted.
