Abstract (en)
[origin: WO2017215832A1] The invention relates to a domestic dishwasher (1) comprising a washing area (4) for washing dishes and a dosing system (100) which comprises a storage container (101) for storing a solid dispensing agent, a dosing device (104) for dispensing the solid dispensing agent from the storage container (101) into the washing area (4) and a closure device (110) for hermetically sealing the storage container (101). A pump (113) is provided to evacuate air from the storage container (102).
