Abstract (en)

[origin: WO2017212379A1] The present invention relates to an extractor hood (1), comprising a fan (12), a viewing hood (10) and at least one air supply channel (101). The extractor hood (1) is characterized in that the at least one air supply channel (101) has a channel end (1010) which is located in the lower region of the viewing hood (10), and that at least one air outlet device (102) is arranged at the channel end (1010), which is at least partially arranged in a movable manner in at least one direction on the extractor hood (1).
