Abstract (en)

[origin: WO2018024439A1] The invention relates to a contact arm (1) for a high-voltage switching device and to a method for the use thereof. The contact arm (1) comprises at least one movable profiled bar (3) and at least one contact element (6) for the electrical contacting of a mating contact piece (2), wherein the at least one contact element (6) is fastened to the movable profiled bar (3). The at least one movable profiled bar (3) has at least one open, U-shaped profile.
