Abstract (en)

[origin: WO2017220127A1] The invention relates primarily to the use of one or more compounds having formula (I) X_kY_lZ_mO_n, as described herein, to modify, reduce, or eliminate one or more off-note(s) of one or more substance(s) selected from the group (G1), as described herein, by chemically converting the one or more substance(s) of the group (G1) and thus modifying, reducing, or eliminating the one or more off-note(s), in a composition (Z1), which contains one or more substances selected from the group (G2), as described herein, in addition to one or more compounds of formula (I) and the one or more substances of the group (G1). The invention further relates to new methods for modifying, reducing, or eliminating one or more off-note(s) and new compositions obtained thereby.
