Abstract (en)

[origin: WO2017216457A1] Method for producing a cardboard box comprising a rigid window made of a transparent material extending over at least two adjacent faces of the box, comprising the following steps: • -supplying a continuous width of rigid transparent plastic, the width of which corresponds to the deployed width of the window; • - forming in the said continuous width a succession of longitudinal cuts distributed longitudinally with a spacing corresponding to the width of the window and laterally according to the widths of the said adjacent faces.
