Abstract (en)
[origin: WO2017216214A1] The present invention relates to highly concentrated liquid detergents with a surfactant content greater than or equal to 30 wt.%, having an optimised product stability and an optimally adjusted and stable pH value, wherein, for adjusting the pH value, a combination of at least one inorganic and at least one organic base is used. The invention also relates to methods for washing textiles using the described detergents and to the use thereof.
