Abstract (en)
[origin: WO2017220481A1] A sealing label (1) for sealing a snuff container (100) comprising a structural layer (2) and having first and second side edges (3,4) extending in a length direction (L) and first and second end edges (5,6) extending in a width direction (W). The sealing label (1) is divided in the width direction (W) into a container lid attachment area (11), a container base attachment area (12) and a tear strip area (13) arranged between the container lid attachment area (11) and the container base attachment area (12) and being terminated by a pull tab (7) arranged at the first end edge (5). The structural layer (2) of the sealing label (1) is a single structural layer of the sealing label (1) and consists of a mono oriented polymer film having a direction of orientation coinciding with the length direction (L) of the sealing label (1). A snuff container (100) provided with the sealing label (1) is also disclosed.
