Abstract (en)

[origin: WO2017220730A1] The invention relates to an air cushion shipping bag (1), comprising a carrier (2) formed in a tube-like or bag-like manner for receiving an object by way of a filling opening (4) of the air cushion bag (1). At least one chamber (3) for receiving a medium is arranged on the inner side of the carrier (2) facing the object, wherein the at least one chamber (3) is designed such that only after the object has been inserted into the air cushion bag (1) the chamber can be filled with the medium and then closed.
