Abstract (en)
[origin: WO2018006134A1] The disclosure herein is directed to a beverage container that can be used as a cup comprising: a body defining an internal volume for a single-serve of a beverage, the body has a mouth at a first end having a removable seal for drinking the beverage from the container and a stem having a filling opening at second end, wherein the filling opening is sealed by a closure after filling, and the filling opening and the stem adjacent to the filling opening are narrower than the mouth.
