Abstract (en)

[origin: WO2018017729A1] A method for designing a body-enhancing garment, the method comprising: identifying a desired 3-D body shape; applying light to the desired 3-D body shape to determine a 3-D brightness gradient created by the desired 3-D body shape upon the application of the light; creating a 2-D image of the 3-D brightness gradient; and applying a brightness gradient to a garment based on the 2-D image of the brightness gradient to form the body-enhancing garment.
