Abstract (en)

[origin: WO2018019744A1] The invention relates to an element comprising: a metal base body (7), and a layer of paint (13) extending over at least part of the base body, the paint of the layer of paint having a formulation comprising a binder. The binder comprises or consists entirely of materials produced from renewable natural resources of plant or animal origin. The invention applies to cast-iron pipe elements.
