Abstract (en)

[origin: WO2018019603A1] The invention relates to a cartridge (1) for a water fitting having a stationary bearing disk (2), on which a rotatable ceramic control disk (3) sits, and on which control disk (3) a sliding disk (4) made in particular of plastic is located. In order that no leaking water can escape from the cartridge (1), even at high water pressure, according to the invention, the control disk (3) is pressed onto the stationary bearing disk (2) by a pressure element.
