Abstract (en)

[origin: WO2018020523A1] The present invention relates to an apparatus for drying aggregates (1), such as sand and/or the like, comprising a loading unit (3), for loading aggregates to be dried, a drying unit (5), for drying said aggregates loaded in said loading unit (3), and a storage and offload unit (6), arranged to draw said dried aggregates from said drying unit (5) and offload the same, characterized in that said drying unit (5) comprises a drying drum (51), having an internal volume (V), in which said aggregates to be dried are collected, mixing members (52) of said aggregates contained in said drying drum (51), and heating means (53), for heating said internal volume (V) of said drying drum (51).
