Abstract (en)
A railway platform has a sidewalk (2) for pedestrian use, which extends alongside a railway track (3) and is provided with a delimitation barrier (5) suitable to limit passenger access to the railway track (3); the delimitation barrier (5) having a plurality of uprights (6), which are distributed along the sidewalk (2) for pedestrian use, each being movable between a raised position, in which the upright (6) projects above the sidewalk (2) for pedestrian use, and a lowered position, in which the upright (6) extends under the sidewalk (2) for pedestrian use.
