Abstract (en)

[origin: WO2018024297A1] The invention relates inter alia to a bridge prop (110, 120) for propping a bridge segment (300). According to the invention, the bridge prop (110, 120) comprises at least one wheel (10) which allows a method for operating the bridge prop (110, 120) on a temporary structure, especially supporting framework or launching gantry, located under the bridge segment (300).
