Abstract (en)
[origin: EP3500005A1] The present disclosure provides an sPUCCH transmission method, a UE and a base station. The sPUCCH transmission method includes: receiving downlink data, and acquiring a cyclic shift value for the transmission of an sPUCCH in accordance with indication information carried in a downlink control channel corresponding to the received downlink data; and transmitting the sPUCCH in accordance with the cyclic shift value, ACK/ NACK feedback information for the downlink data being carried in the sPUCCH.
