Abstract (en)

[origin: WO2018033441A1] The present invention relates to an assembly (300) comprising a medical upper garment (10) with a first outer visible side (74) and a medical lower garment (200) with a second outer visible side (75), the upper garment having a main part (12) and adjoining sleeves, and the lower garment (200) having a seat part (202) and adjoining legs (204). Each sleeve is a short sleeve (14), and the short sleeves (14) have an outer sleeve element (16) and an inner sleeve element (22), the inner sleeve element (22) having a first gathered region (33). The legs (204) have an outer leg element (206) and an inner leg element (212), the inner leg element (212) having a second gathered region (233). The first gathered region (33) cannot be seen on the first visible side (74), and the second gathered region (233) cannot be seen on the second visible side (75).
