Abstract (en)

[origin: WO2018033351A1] The invention relates to a carrying device (10) for a baby or a small child, comprising a carrying system (12) having two shoulder straps (22) and a carrying cloth (14) connected to the carrying system (12). The carrying system (12) has a belly part (16), on which the shoulder straps (22) are held, wherein the carrying cloth (14) is connected to the belly part (16), and between the belly part (16) and the carrying cloth (14), a receiving space (18) for the baby or the small child is formed.
