Abstract (en)
[origin: WO2016086943A1] Top member arrangement (200) for a roof window (32) comprising an interface module (11) comprising at least one climate regulating device including three lips (15a, b,c) each having a distal free top and a bottom end, which lips extending along the length of an elongate base part (16) and with the distal free tops extending diverging from the elongate base part (16). An inner side of two of the lips are adapted to sealing engagement with a sash profile (30) of the roof window (32) in a closed position. The interface module (11) further comprises an end part (50) provided at one or both end(s) of the elongate base part (16), which is/are integrally formed with the elongate base part (16) and three lips (15a, b,c). The interface module thus constitutes one piece.
