Abstract (en)
[origin: WO2018036665A1] The invention relates to a torque wrench adapter (10) for attaching or coupling an open-ended wrench insert to a torque wrench, having a first section (13), which is used to attach the torque wrench adapter (10) to an open-ended wrench insert, and having a second section (14) which is used to attach the torque wrench adapter (10) to a torque wrench, wherein the first section (13) and the second section (14) are connected to each other in an articulated manner via a joint (15) in such a way that the same can be displaced relative to each other about a pivot axis (16) of the joint (15).
