Abstract (en)
[origin: WO2018036784A1] The invention relates to a method for operating an interior camera (104) for a vehicle (100), wherein in one control step at least one camera parameter (122) of the interior camera (104) is controlled by using at least one quality parameter (118) of a previously recorded image from the interior camera (104) when a head (110) of a target person (108) is detected in the image, wherein the camera parameter (122) is set to a predefined value when no head (110) is detected.
