Abstract (en)

[origin: WO2018046154A1] The invention relates to a cosmetic product for changing the natural colour of keratin fibres, in particular human hair, which contains at least packaging (VP) and a cosmetic composition (KM) found in said packaging (VP). The packaging is made of a multi-layered film (F) which contains at least two polymer layers (P1) and (P2) and at least one barrier layer (BS). The cosmetic composition comprises at least one oxidizing agent, at least one thickening agent and at least one anionic surfactant. The use of the packaging (VP) in combination with the cosmetic composition (KM) surprisingly does not lead to a blowing of the packaging or an excessive loss of water from the agent (KM) during storage.
