Abstract (en)
[origin: WO2018046550A1] The invention relates to a weapon tube module (30) for a weapon tube (10). The weapon tube module (30) has a storage module and a launching module (40), wherein the storage module has at least one first storage tube (70) and a second storage tube (70). The first storage tube (70) has at least one first storage position for a weapon (60), and the second storage tube (70) has at least one first second storage position. The first storage tube (70) and the second storage tube (70) are arranged next to each other in a parallel manner in the longitudinal direction of the weapon tube module (30). The launching module (40) is arranged on the storage module side facing the ship interior, and at least the storage module can be rotated about the longitudinal direction of the weapon tube module (30).
